

Discovery-driven Australian gold and copper explorer

A gold and copper exploration company focused on discovering and advancing mineral opportunities across some of Australia's most prospective mineral provinces.

Diversified Portfolio

A diversified, gold and copper exploration and development portfolio, located across leading mining provinces in Australia.

Cash & Investments

Cash of ~A\$8.0 million (C\$7.8 million) and investments of ~A\$37.5 million (C\$36.9 million).

2026 Exploration Focus

Portfolio demonstrates prospectivity for standalone development projects, with Wyloo, Toolunga and Teichman in the Pilbara representing key exploration focus areas for 2026.

Belltopper Gold Project

Anchored by the Leven Star Mineral Resource Estimate of 87,000 oz gold (760,000t @ 3.6 g/t Au), with ongoing exploration targeting resource growth.

Egina Gold Camp

Gained 100% ownership of the Egina Gold Camp, strengthening Novo's portfolio of district-scale exploration opportunities in the Pilbara.

Project Generation

Dedicated project generation program focused on identifying advanced gold and copper assets that expands the Company's exploration and development portfolio.

High Quality, Multi-District Exploration Portfolio

WEST PILBARA DISTRICT

Balla Balla Project

Grass roots polymetallic targets generated in 2025 with follow up AC drilling planned for Q3 2026

TEICHMAN PROJECT

Outstanding rock chips received from mapping programs in 2025 with RC drilling planned in Q3 2026

ONSILOW DISTRICT

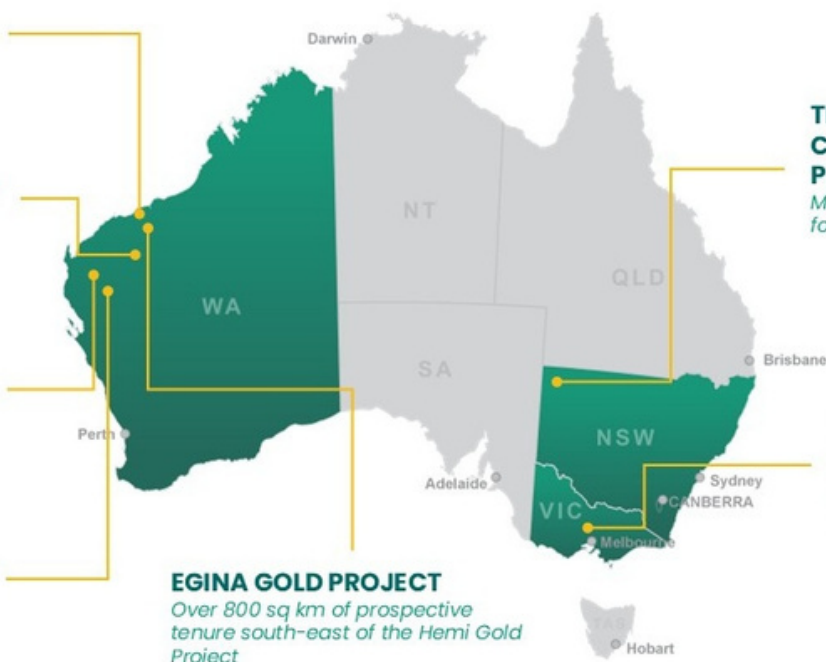

Toolunga Project

Consolidated prospective 1,520 sq km landholding targeting IRG copper – gold systems in the Onslow District

PILBARA ANTIMONY

Wyloo Project

Au-Ag-Sb prospect with drill targets developed in 2025 and maiden RC drilling completed in Q2 2026

TIBOOBURRA GOLD DISTRICT

Clone and New Bendigo Projects

Manhattan Corp. Farm-in and JV with follow up drilling proposed for H2 2026

BELLTOPPER GOLD PROJECT

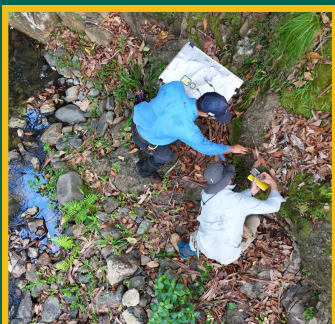

Targeting Fosterville 'style' mineralisation* with drilling in H2 2026

Updated Exploration Target in February 2026

EGINA GOLD PROJECT

Over 800 sq km of prospective tenure south-east of the Hemi Gold Project

* No assurance can be given that Novo will achieve similar results at the Belltopper Gold Project

High Quality, Multi-Project Exploration Portfolio

Exploration Focused, Discovery Driven

Belltopper Gold Project in Victoria

Project evaluation advancing with 2026 Exploration Target, Leven Star Inferred Mineral Resource and further drilling

Greenfields Exploration in Western Australia

Advanced exploration projects consisting of Egina Gold Project (south of Hemi Gold Project) and Wyloo Polymetallic Project

Advanced Exploration in New South Wales

Tibooburra Gold Project (Farm-in/JV) with 22 km district-scale trend focused on multiple prospects: Pioneer, Clone, New Bendigo)

Western Australia Greenfields Position

First pass drilling programs being executed providing district-scale exploration exposure to gold, copper and antimony
